Why do we care for Art?
What is Art about when it stops
being about beauty?

Thinking

The global market for Art in the last few years forced us to reflect.

Because Art was required to have a precise response to questions like "How valuable will you be in a few years from now?"

Or even "How famous will you make me if I buy you?"

Our answer to such a distressing direction in Art, was Zaki.

Zaki

Zaki is interested only in inspired artists. And discerning clients.

Deciding

We make it easy for those who truly appreciate Art to buy or commission from us. No matter where in the world you live.

At prices that are centered on passion, not speculation.

Zaki can help surround you with Beauty, Ideas and Imagination.

And all the things towards which the human spirit soars.

Choosing

You can view our online Art catalogue, make a purchase and have it delivered anywhere in the world.

Choose by Medium, Size, Style or Subject.

Alternately, if something has captivated you, ask us to create something similar.

Occasionally, we also exhibit a selection at galleries.

Delight in Art.
